

I am very concerned that we may lose the K-LOVE signal. Our airwaves are filled with secular programming but we have limited programming that contains the positive and uplifting message that K-Love provides. I recently discovered K-LOVE and now it has become my station of choice. I believe so strongly in the service that K-LOVE provides that I recently became a monthly financial supporter of K-LOVE. It is so important that we continue to provide programming like K-LOVE that "build-ups and strengthens" our children and communities. We have an over abundance of negative and discouraging programming playing over our airwaves.
